

## Beginner Sewing Lab 104 "Skill Building"

### 1. Patch Pockets

A simple method for applying a patch pocket to your project.

### 2. Making gathers

Gathers are not just for ruffles; learn how to make evenly spaced gathers.

### 3. The easy fly zipper technique

This is the zipper used in the front of jeans. It's easier than you think!

### 4. Interfacing pointers

Interfacing can be a big help in your sewing. Learn how to decide where to place your interfacing.

### 5. A simple collar

Sometimes called the "convertible collar", this is the easiest collar to make.

### 6. Neckline facings

Neckline facings are found in many garments. See how to sew them in place and make them lie flat during wear.

### 7. Elastic casings

How to sew the casing and inserting the elastic.

### 8. Setting in a sleeve

A set in sleeve does not need to be difficult to insert; follow these easy steps!

### 9. In-seam pockets

These hidden pockets can be found in many garments. Learn two easy methods for making them.

### 10. Basic waistbands

Make your waistbands smooth and straight using this method.
