Break Your Serger Out of the Box

Class Outline--This class is for beginners and beyond

This is a workbook class. Instead of completing a project, you will be creating your own customized serger workbook. In addition to the video lessons, please download the workbook pages and the pdf lessons that provide an overview of the serger, stitches, supplies and all the detailed instructions necessary to complete the workbook. Work at your own pace, and feel free to post as many questions to the class message board as you need!
